

Inclusive Inspiration

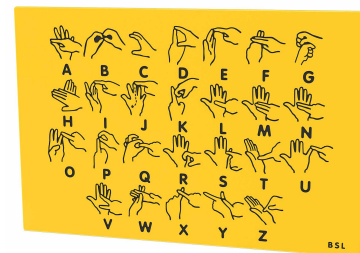

A Large Communication Panel

FIPLCO3
Playground specific icons and symbols grouped together using the modified Fitzgerald colour key. This play panel is specifically designed to assist children who face challenges with verbal communication, like those with Autism to express their thoughts and feelings.

B Sign Language Panel – BSL (British)

FISIGNUK3
This tactile play panel encourages children to learn and practice sign language on the playground, promoting social connections with peers who have hearing impairments. This play panel can be customised to display different sign languages from around the world.

C Accessible Fishing Boat

FIFPBOAT
Designed with wheelchair accessibility in mind, this playground boat ensures that every child can join in the fun and excitement. Built-in benches create a social space encouraging peer interactions. Flat-pack assembly provides easy transport and installation.

D Emotions Communication Panel

FIEMCO6
Children can express how they feel to others by pointing to the panel's symbols, which have been specially selected to communicate emotions. Durable play panel designed to comply with British and European play standards and constructed using recycled HDPE.

Aluminium Extruded Posts

FIAP
Aluminium posts can be ordered in standard and custom lengths up to 3600mm. The T-slots on the posts are positioned at 45-degree intervals, allowing you to design your own configurations. Pair with our panel brackets, as an ideal solution for installing play panels.
